

Vacancy notice for the post of Programme Officer

in the ECSEL Joint Undertaking

Temporary Agent AD 08

Reference: ECSEL-2018-02-AD08-PO

ECSEL Joint Undertaking is a public-private partnership on electronic components and systems, established by Council Regulation 561/2014.

Electronic components and systems (ECS) are a pervasive Key Enabling Technology, impacting all industrial branches and almost all aspects of life. A smartphone, a smart card, a smart energy grid, a smart city, even smart governance; everything “smart” is based on integrating semiconductor chips running embedded software. They provide the fabric on which the internet runs; they give life to portable phones and tablets; they drive driverless cars and trains, fly airliners, drones and satellites. In modern times, no national economy can win in the global competition without mastering this technology, with unparalleled systemic and strategic impact.

ECSEL Joint Undertaking provides financial support mainly in the form of grants to participants following open and competitive calls for proposals.

Members of the Joint Undertaking are the European Union through the Commission, Member States and Associated Countries to the Framework Programme Horizon 2020 on a voluntary basis, and three associations (EPoSS, AENEAS and ARTEMIS Industry Association) representing the actors from the areas of micro- and nano-electronics, smart integrated systems and embedded/cyber-physical systems.

ECSEL JU is located in Brussels.
